## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 19, 2007, has been entered.

### ***Response to Amendment***

2. Claims 1-17 remain pending.

### ***Response to Arguments***

3. The rejections set forth in the prior Office action are withdrawn in view of the amendment filed June 19, 2007.

### ***Claim Objections***

4. Claim 7 is objected to because of the following informalities: "0.5 to 2 0% by weight" should, apparently, read "0.5 to 20% by wieght." Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 2, 8-11, and 15-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A. These claims are indefinite because it is unclear whether the subject matter enclosed within the parentheses in claims 2 and 15 is a required part of the claim.

***Allowable Subject Matter***

7. Claim 1, 3-7, and 12-14, are allowed.

8. The following is an examiner's statement of reasons for allowance: The prior art neither teaches nor suggests the claimed solution that contains an anionic surfactant, an amphoteric surfactant, and a non-ionic surfactant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

9. The prompt development of clear issues in the prosecution history requires that applicant's reply to this Office action be fully responsive (MPEP § 714.02). When filing an amendment, applicant should specifically point out the support for any amendment made to the disclosure, including new or amended claims (MPEP §§ 714.02 & 2163). A fully responsive reply to this Office action, if it includes new or amended claims, must therefore include an explicit citation (i.e., page number and line number) of that/those

portion(s) of the original disclosure which applicant contends support(s) the new or amended limitation(s).
